
The Cedar Valley Nature Trail, which is also the American Discovery Trail through eastern Iowa, is severed due to a closed bridge over Wolf Creek at LaPorte City.

Black Hawk County Conservation Board has jurisdiction over the trail and has the responsibility for repairing or replacing the bridge, but the cost is high. As a result of the cost, there is not currently a plan to re-open the bridge.

Preserve the Cedar Valley Nature Trail is a group of volunteers and trail users/trail supporters who are advocating reconnecting the trail by repairing or replacing the bridge.

Anyone who supports preservation of the trail should sign this page in order to generate greater interest in preserving the trail as it was and to communicate that interest and support by trail users.

Ultimately, private contributions will be required in order to provide the match for any grants that are obtained and to help defray the cost of the project that will not be covered by grants. Contributions from the public demonstrate the level of commitment by trail users for completion of the project.

Contributions can be made payable to Cedar Trails Partnership with a note “**Wolf Creek Bridge**” in the memo, and sent to 6510 Hudson Road, Cedar Falls, IA 50613.
